PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

This installation, covering approximately 332 acres, is located on the southeast edge of Korosten, 41 kilometers (km) south of Ov-ruch and 78 km north of Zhitomir (Figure 1). The installation is served by road from Korosten and by a siding from the Korosten-Kiyev railroad. Korosten Airfield is located 4 km northwest.

The installation contains 132 buildings (Figures 2 and 3) as follows: three multistory administration buildings, 18 barracks, 12 general storage buildings, 12 and possibly 13 vehicle maintenance/storage buildings, and 86 support buildings. Also within the installation

are five probable tank calibration ranges, one possible small-arms range, and two probable and one possible vehicle parks.

photography shows a driver-training area for wheeled-vehicles on the southwest edge of the installation. A fenced, road-served POL storage area containing five semi-buried tanks is located approximately 3 km southeast of the installation. Comparative coverage since shows no significant change.

The installation was covered by KEY-HOLE missions between

DESCRIPTION OF INSTALLATION

Railroad Service

A siding from the Korosten-Kiyev rail line runs along the northeast part of the installation.

Road Service

A road from Korosten traverses the northern part of the installation.

Aircraft Landing Strips

Korosten Airfield is located approximately 4 km northwest.

Administrative and Troop Housing Area

Area D contains one C-shaped multistory administration building, 18 multistory barracks, and 56 support buildings.

General Storage Areas

Area E1 contains seven storage and six support buildings.

Area E2 contains five storage and seven support buildings.

POL Storage Area

Area G, fenced, contains five semiburied tanks with estimated diameters of 50 feet, three of 35 feet, and 20 feet.

Equipment Storage/Maintenance Areas

Area J1 contains two multistory H-shaped

probable administration buildings, one 110 to 200 by 160 feet and one 125 by 55 feet; 11 vehicle maintenance/storage buildings, three 380 by 55 feet, one 300 by 55 feet, one 270 by 55 feet, two 230 by 60 feet, one 180 by 60 feet, two 110 by 60 feet and one 90 by 60 feet; and 17 support buildings ranging from 130 by 50 feet to 40 by 20 feet. The area includes five probable tank calibration ranges with the following dimensions: 700 by 60 feet, 600 by 70 feet with a 70- by 45-foot building at north end, 400 by 220 feet, 400 by 140 feet, 300 by 110 feet. Two partially fenced probable vehicle parks, 420 by 400 feet and 700 by 220 feet, are also located in this area.

Area J2 contains a possible fenced vehicle park 650 to 750 by 350 to 400 feet with a possible 250- by 60-foot vehicle storage building.

Small-Arms Firing Range

Area L is a possible 150- by 70-foot small-arms firing range.

Driver Training Area

Area M is a driver-training area for wheeled-vehicles.
